

I am a medium and work with people who want to communicate with their loved ones on the Other Side. You may wonder why I am on Anita's referral list. Anita and I have been close friends for many years both socially and on a business level. She co-authored my book, *A Second Chance to Say Goodbye*, and we have worked together many times with clients who benefited from our combined services.

At one point we realized that I was easily able to communicate with deceased animals the same way I reached people in the Spirit World. I am able to hear the words and thoughts of living animals, but since I have worked with death, dying, and grief for so many years, I am more comfortable with those who have passed.

I give lectures on healing grief, the work of a medium, past lives, astrology and psychic development. I teach workshops on all of these subjects, and have an exciting new workshop on finding and understanding your Akashic Records.

One of my popular services is the Message Circle: A group of people meet and receive messages from the spirits of their loved ones. Please visit my website, www.Mariannemichaels.com to read about my work and testimonials from people I have helped.

I also offer life coaching, but I work with the spirits of your loved ones. This is an unusual and interesting way to clear your mind and be able to accept the plans to follow in your life.
